

# SAANIKOMMU JAGADESHWAR REDDY

B.Tech Information Technology Student | Aspiring Frontend Developer

+91 90147 59768 | jktech7575@gmail.com | Vijayawada, Andhra Pradesh, India

## PROFESSIONAL SUMMARY

B.Tech Information Technology student with a strong interest in frontend development and project-based learning. Hands-on experience in building responsive web applications using HTML, CSS, React.js, Vite, Tailwind CSS, GitHub, Supabase, and Firebase. Developed academic and personal projects including a private chat application, smartwatch e-commerce website, solar smartwatch product website, and personal portfolio. Eager to improve technical skills and contribute to real-world software development through internship opportunities.

## TECHNICAL SKILLS

### Languages

- C
- Python Basics
- HTML5
- CSS3

### Libraries & Frameworks

- React.js
- Vite
- Tailwind CSS

### Tools & Platforms

- Git
- GitHub
- VS Code
- Vercel
- Supabase
- Firebase

### Core Concepts

- Responsive Web Design
- DOM Manipulation
- Authentication Basics
- CRUD Operations Basics
- UI Development
- Debugging

## PROJECTS

01

### ORVIX – PRIVATE CHAT APPLICATION (Personal Project)

React.js, Supabase, Tailwind CSS, Capacitor

A private chat application built using modern web technologies with real-time messaging and a premium mobile experience.

- Built authentication flow, user profiles, real-time chat, chat list, and theme customization.
- Implemented unread indicators, theme consistency, and mobile-friendly navigation.
- Worked with Supabase authentication, database structure, notifications using Firebase, and added APK support.

02

### HELIOWATCH – SMARTWATCH E-COMMERCE WEBSITE (Personal Project)

React.js, Vite, Tailwind CSS, Vercel

A responsive smartwatch e-commerce website designed to showcase products, features, pricing, and shopping flow in a clean modern interface.

- Built product showcase sections, product detail flow, cart-style UI, and checkout-style screens.
- Focused on responsive layout, clean visual hierarchy, and user-friendly shopping experience.
- Deployed using Vercel and maintained the project through GitHub.

03

### SOLARA – SOLAR SMARTWATCH PRODUCT WEBSITE (Personal Project)

React.js, Vite, Tailwind CSS, CSS, Vercel

A product-focused website for a solar-powered smartwatch concept, designed to highlight solar charging, product benefits, and smartwatch features.

- Created a clean landing page for a solar smartwatch concept with feature-focused sections.
- Highlighted solar charging, product benefits, and smartwatch functionality through structured content.
- Focused on responsive design, visual hierarchy, and modern product presentation.

04

### PERSONAL PORTFOLIO WEBSITE (Personal Project)

React.js, Vite, CSS, Vercel

A personal portfolio website created to showcase projects, skills, contact information, and a career-focused presentation.

- Built a responsive portfolio website to present projects, technical skills, and personal profile.
- Created project cards, contact section, and clean layout for professional visibility.
- Deployed using Vercel and maintained as a digital profile for internship applications.

## EDUCATION

Bachelor of Technology in Information Technology  
NRI Institute of Technology, Vijayawada, Andhra Pradesh  
2024 – 2028  
CGPA: 8.20/10

## VIRTUAL INTERNSHIPS & LEARNING

- GenAI Powered Data Analytics
- Software Engineering
- Robotics & Controls
- Basics of Python
- Quantum Computing Certificate

## ADDITIONAL STRENGTHS

- Strong problem-solving and debugging skills
- Quick learner with a curiosity for new technologies
- Built multiple academic and personal projects
- Focused on clean UI, responsive design, and UX
- Disciplined, consistent, and self-motivated
